Important information for contact lens wearers: ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye care professional. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye care professional immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-267-5098 or visit acuvue.ca.

Important information for contact lens wearers: ACUVUE® RevitaLens Multi-Purpose Disinfecting Solution is indicated for the care of soft (hydrophilic) contact lenses, including silicone hydrogel lenses. Use this product, as recommended by your eye care professional, to disinfect, clean, rinse, store, remove protein and condition your contact lenses. If you are allergic to any ingredients in ACUVUE® RevitaLens MPDS, do not use this product. Problems with contact lenses and contact lens care products could result in corneal infection and/or ulcers and lead to loss of vision. It is essential that you follow your eye care professional's directions and all labeling instructions for proper use of lenses and lens care products, including the contact lens case.
